

ABDUL QADEER SIKANDAR

SOFTWARE ENGINEERING STUDENT

+92 308 6219042 | abdulqadeersikandar@gmail.com | Gujrat, Punjab, Pakistan

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience in full-stack web development, AI-integrated applications, and modern web technologies. Skilled in JavaScript, React.js, Node.js, Express.js, SQL Server, and Firebase. Built and deployed multiple real-world projects, including a live e-commerce platform for a real client, while actively pursuing remote internship experience.

OPEN TO

Software Engineering Internship | Frontend Developer | Full Stack Developer | React Developer | MERN Developer

EDUCATION

BS Software Engineering

2024 – 2028

University of Gujrat, Hafiz Hayat Campus, Gujrat, Pakistan

CGPA: 3.60 / 4.00 | Current Semester: 5th

TECHNICAL SKILLS

Programming Languages: C, C++, Java, JavaScript

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: SQL Server, MySQL, Firebase Firestore, IndexedDB

Tools & Platforms: Git, GitHub, VS Code, Jira, NetBeans, Render, Netlify, Vercel

Concepts: REST APIs, PWA Development, Responsive Design, Authentication, Data Structures & Algorithms

FEATURED PROJECTS

Custom Pearl – E-Commerce Platform (Built for a Real Client)

Live: custompearl.netlify.app/

React.js, Node.js, Express.js, SQL Server — GitHub: github.com/abdulqadeersikandar-pixel/custom-pearl

- Delivered a full-stack e-commerce platform for an actual client — user authentication, product management, order processing, RESTful APIs, and a responsive React.js UI backed by SQL Server.

Quran AI

Live: quranai-44.netlify.app/

JavaScript, OpenAI API, Gemini API, Groq API — GitHub: github.com/abdulqadeersikandar-pixel/Quran-AI

- Developed an AI-powered assistant integrating GPT-4o, Gemini, and Llama 3 with automatic model switching, unified chat interface, and real-time responses.

Chit Chat – Real-Time Communication Platform

Live: chitchat-44.netlify.app/

JavaScript, Firebase, ZegoCloud, Cloudinary, CryptoJS — GitHub: github.com/abdulqadeersikandar-pixel/Chat-App

- Developed a real-time communication platform featuring voice/video calling, group chats, Firebase Authentication, offline support (IndexedDB), and AES-256 encryption.

Wholesale POS & Inventory Management System

Live: pos-44.netlify.app/

JavaScript, Bootstrap, IndexedDB, Chart.js — GitHub: github.com/abdulqadeersikandar-pixel/Wholesale-POS-Inventory-Management-System

- Developed an offline-first POS and inventory management system featuring sales tracking, inventory management, analytics dashboards, and PDF report generation

Language Learning App

Live: languagelearner-44.netlify.app/

JavaScript — GitHub: github.com/abdulqadeersikandar-pixel/Language-Learning-App

- Interactive language-learning platform with lesson tracking and a responsive, user-friendly interface.

Weather Dashboard

Live: weather-plum-two-59.vercel.app/

JavaScript, Weather API — GitHub: github.com/abdulqadeersikandar-pixel/Weather

- Real-time weather dashboard with location search, forecasts, and a clean responsive UI.

EXPERIENCE

Requirements Engineering Intern — Deen Craft

Jan 2026 – Mar 2026

- Gathered and documented functional requirements using Jira and authored the Software Requirements Specification (SRS).
- Created user stories, use cases, and requirement specifications, collaborating with stakeholders on project planning. Repository: github.com/abdulqadeersikandar-pixel/DeanCraft

Web Development Intern (Remote)

Jul 2026 – Present

- Concurrently completing remote web development internships at Code Alpha, Fenixtech, Infolith, and DecodeLabs, contributing to live web projects and applying full-stack development skills in professional, deadline-driven settings.
